mission & vision

The **AED Center for Academic Partnerships** (CAP) provides professional development and academic opportunities that help students and professionals establish lasting relationships and make new contributions to the development of their societies. With a focus on international collaborations and linkages, CAP's innovative programs aim to help participants become creative thinkers with global perspectives.

CAP's programming expertise includes university placement and linkage programs, scholarship administration, English language training, and student advising and monitoring, as well as K-12 teacher exchanges and

work with civil society organizations. CAP maintains a strong network of university contacts in the United States and abroad based on our reputation for building strong partnerships and consortia for our clients, which have included U.S. and foreign governments, institutions of higher learning, and civil society organizations. CAP programs exemplify AED's commitment to creating enriching and innovative solutions to critical social and economic problems. For CAP this means providing students, scholars, and civil society leaders with opportunities to reach their full potential through participation in programs that expand their access to knowledge and develop sustainable linkages that transcend national borders.

our program expertise

CAP's excellent program development and delivery ensure that our programs maintain the highest quality and are adaptable to the needs of our clients.

Our expertise includes:

- Educational advising, including university placement recommendations, preparation of admissions materials, and consultation in final school selection
- Individual student monitoring, support, and resolution of academic, language, cross-cultural, health, and other issues
- Enrichment and enhancement of academic study programs through internship placements, community service, and campus activities
- Recruitment of academic experts for merit review of scholarship applications and grant proposals
- Design and delivery of English courses, ESL teacher training programs, and development of English language resources and academic skill centers
- Alumni tracking and program development
- New media, Web site, and database design
- Conference and workshop design and implementation

*Providing future leaders with the skills, experience,
and vision they will need to engage in a global environment.*

six focus areas

TRAINING AND RESOURCES FOR ENGLISH EDUCATION

Design and deliver learner-centered English language programming to improve language skills, as well as learner-centered teacher training workshops and development of academic skill centers

ACADEMIC EXCHANGE AND YOUTH LEADERSHIP

Administer theme-based academic study combined with cultural exposure, English language training, leadership training, and opportunities for professional development

UNIVERSITY STUDENT ADVISING AND DEVELOPMENT

Place, advise and monitor foreign students at all levels from ESL and foundation year programs to undergraduate and graduate studies, including enrichment programs to promote personal and professional growth

CIVIL SOCIETY AND MEDIA TRAINING EXCHANGE PROGRAMS

Build participants' capacity through technical skills training, international network-building, and third-country immersion experiences that will in turn enhance their organizations' capacity and program activities upon their return home

FULBRIGHT TEACHER PROGRAMS

Manage Fulbright teacher programs in coordination with Fulbright Commissions, ministries of education, and the U.S. Department of State to provide professional development opportunities, as well as deepen mutual understanding among U.S. and international teachers, administrators, and their schools

UNIVERSITY PARTNERSHIP PROGRAMS

Build long-term, bilateral partnerships and mutual understanding through short-term, faculty, and staff exchanges, online and jointly taught courses, video conferencing, educational advising workshops and other person-to-person interactions

AED is a nonprofit organization working globally to create enduring solutions to critical problems in health, education, and social and economic development. Collaborating with partners throughout the world, AED develops and implements ideas that change lives through more than 300 programs in all 50 U.S. states and the District of Columbia and more than 150 countries. www.aed.org

The **AED Center for Academic Partnerships** engages with educational institutions and individuals in the United States and around the world to strengthen and diversify academic exchanges and educational linkages. The center's programs build individual and institutional capacity by providing learning environments and facilitating cooperation and sharing of best practices through presentations and professional publications. Emerging leaders hone their skills and expand their cultural awareness through educational exchange programs, workshops, and conferences.
